

Biography

Xiaoxue (Alena) Sun is a digital artist who's been bridging digital art, humanity, and technology. Her art practice explores the relationships between human identity and technological development, supported by artworks that combine digital imagery, computer algorithms, and interactive installations layered with narratives. By addressing themes of self-presentation, societal expectations, and authenticity in the digital age, her projects invite audiences to reflect on their relationships with technology and the global society. Currently pursuing a Bachelor of Fine Arts in Art and Technology at The Ohio State University, Sun has consistently earned recognition on the Dean's List. Her professional experience includes research on advanced video coding algorithms at the National Engineering Research Center of Visual in Beijing and creating robotic and machine learning projects as a Student Research Assistant at OSU. Sun's cross-cultural background shaped her work, including diverse perspectives to address social issues and encouraging independent thinking. Through her arts, Sun strives to transform technology into a reflective tool, inspiring curiosity and pushing social progress.
